22 October 1982

NOTE FOR: [REDACTED]

25X1

FROM :

[REDACTED] OSWR/SSD

25X1

Attached are copies of the reports you requested during our 21 October discussions on space systems and anti-satellite activities. These reports are:

- "Current Gaps in Our Knowledge of Soviet Space Systems" [REDACTED]

25X1

- "The Soviet Space Program: A forecast of major developments" [REDACTED]

I thought you may also be interested in an April 1982 report prepared by the Space Systems Subcommittee of WSSIC on the subject of "Gaps in Intelligence Community Capability to Perform Foreign Space Systems Assessments." This report was prepared at the request of WSSIC and was stimulated by an NFIB review (~July 1981) during which the broader issue of IC capabilities and deficiencies was discussed. The report was not published as a finished product but I understand that it will be incorporated into a more comprehensive document by the Chairman of WSSIC. [REDACTED]

25X1

Regarding your question on the large growth of Soviet spending for space programs and what other parts of their military budget may have been reduced to compensate for this -- SOVA/Defense Industries Division is working this problem. The preliminary findings passed to me verbally suggest that spending on some strategic programs may have been trimmed. [REDACTED]
